SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE	DELIVERY MODE
3 MONTHS	04/23/2007	PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary	Application No.	Applicant(s)	
	10/675,482	HEIM ET AL.	
	Examiner	Art Unit	
	Lun-See Lao	2615	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) ☒ Responsive to communication(s) filed on 25 June 2004.

2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

4) ☒ Claim(s) 1-9 and 12-19 is/are pending in the application.

4a) Of the above claim(s) _____ is/are withdrawn from consideration.

5) ☐ Claim(s) _____ is/are allowed.

6) ☒ Claim(s) 1-9 and 12-19 is/are rejected.

7) ☐ Claim(s) _____ is/are objected to.

8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

9) ☐ The specification is objected to by the Examiner.

10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.

Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).

Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).

11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).

a) ☒ All b) ☐ Some * c) ☐ None of:

1. ☒ Certified copies of the priority documents have been received.

2. ☐ Certified copies of the priority documents have been received in Application No. _____.

3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

1) <input checked="" type="checkbox"/> Notice of References Cited (PTO-892) 2) <input type="checkbox"/> Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) <input type="checkbox"/> Information Disclosure Statement(s) (PTO/SB/08) Paper No(s)/Mail Date _____.	4) <input type="checkbox"/> Interview Summary (PTO-413) Paper No(s)/Mail Date. _____. 5) <input type="checkbox"/> Notice of Informal Patent Application 6) <input type="checkbox"/> Other: _____.

DETAILED ACTION

Introduction

1. This action is in response to the preliminary amendment filed on 06-25-2004.

Claims 10-11 have been canceled. Claims 1-9 and 12-19 are pending.

Claim Objections

2. Claim 13 is objected to because of the following informalities: claim 13 recites "The interior rear-view mirror of claim 10" on line 1, which appears to be --- The interior rear-view mirror of claim 12---. Appropriate correction is required.

3. Claim 14 is objected to because of the following informalities: claim 14 recites "The interior rear-view mirror of claim 11" on line 1, which appears to be --- The interior rear-view mirror of claim 13---. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4, 9, 12 and 15-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Turnbull (US 2002/0032510).

Consider claim 1 Turnbull teaches an interior rear-view mirror (see fig. 18) for motor vehicles comprising:

Art Unit: 2615

a mirror housing (see fig. 18) in which at least one speaker (500,512) is arranged, said speaker being part of a bass reflex system (read on lower frequency and see page 22 [0223]-[0225]).

Consider claims 2-4 Turnbull teaches the interior rear-view mirror (see fig. 18) of the bass reflex system (such as low frequency) has at least one chamber that is inherently (because by the interior rear-view mirror housing) sealed airtight with respect to the installation space of the mirror housing (see fig. 18 (10) and see page 22 [0223]); and the chamber holds at least one bass reflex port (506 and see page 22 [0223]); and the bass reflex port (506) connects to an opening in a rear wall of the mirror housing (see fig. 18 (10) and see page 22 [0223]).

Consider claims 9 and 11 Turnbull teaches the interior rear-view mirror of the chamber with bass reflex port (506 and see page 22 [0223]) and speakers (500,512) is designed as a plug in module (see fig. 6 (86) and see page 12 [0142]); and the interior rear-view mirror, particularly the speaker (see fig. 18 (500, 512)) can be oriented (see page 22 [0223]).

Consider claims 15-16 Turnbull teaches that the interior rear-view mirror of the bass reflex system (read on lower frequency and see page 22 [0223]-[0225]) has two speakers (see fig. 18 (500,512)) located next to one another and a distance apart; and the interior rear-view mirror (see fig. 18) of the bass reflex port (506) is located in the region between the two speakers (see 500, 512 and see page 22 [0223]).

Art Unit: 2615

Consider claim 17 Turnbull teaches that the interior rear-view mirror of the speaker (see fig. 18 (500, 501)) is attached to the rear wall of the chamber (see 500, 512 and see page 22 [0223]).

Consider claims 18-19 Turnbull teaches the interior rear-view mirror of the bass reflex system (read on lower frequency and see page 22 [0223]-[0225]) is located in the region between the bottom and the rear wall of the mirror housing (see fig. 18); and the interior rear-view mirror, characterized in that the bass reflex system (read on lower frequency and see page 22 [0223]-[0225]) is arranged symmetrically with respect to a transverse center plane of the mirror housing (see fig. 18).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Turnbull (US 2002/0032510) in view of Wylin (US PAT. 6,127,919).

Consider claim 5 Turnbull teaches the interior rear-view mirror (see fig. 18) of said bass reflex port (506) terminates a distance away from a of the chamber (see page 22 [0223]); but Turnbull does not explicitly teach that the port terminates a distance away from a rear wall of the chamber.

However, Wylin teaches that the port terminates a distance away from a rear wall of the chamber (see fig.2 (40) and col. 2 lines 48-63).

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to combine the teaching of Wylin into Turnbull to provide a security mounting speaker and improve the sound quality for the speaker system.

Consider claims 6-8 Wylin teaches that the interior rear-view mirror (see fig. 2 (10)) of the rear wall of the chamber (40,42) joins a top wall and side walls of the chamber to a bottom and the rear wall of the mirror housing (see fig.2 (10) and col. 2 lines 48-63); and the rear wall, the top wall and the side walls of the chamber are designed as a single piece with one another (see fig.2 (10) and col. 2 lines 48-63); and the interior rear-view mirror characterized in that the front wall of the chamber opposite the rear wall is formed by a part of the rear wall of the mirror housing (see figs.2-3 (10) and col. 2 lines 48-63).

8. Claims 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Turnbull (US 2002/0032510) in view of Anstee (US PAT. 4,871,953).

Consider claim 13 Turnbull teaches the interior rear-view mirror of the speaker (see fig.18 (500, 512)) can be oriented (see page 22 [0223]); but Turnbull does not teach that the interior rear-view mirror can be oriented by a memory drive.

However, Anstee teaches that the interior rear-view mirror (see fig.1 (50)) can be oriented by a memory drive (52, 60 and see abstract).

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to combine the teaching of Anstee into Turnbull so that the driver will be easier to control the interior rear-view mirror.

Consider claim 14 Anstee teaches that the interior rear-view mirror (see fig.1, (50)) of the memory drive (52,60) is located in the mirror housing (50 and see col. 1 line 61-col.2 line 68).

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A. PICCININI (US PAT. 3,099,797) is cited to show other related internal rear-view mirror for motor vehicles.

10. Any response to this action should be mailed to:

Mail Stop ____ (explanation, e.g., Amendment or After-final, etc.)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Facsimile responses should be faxed to:

(571) 273-8300

Hand-delivered responses should be brought to:

Customer Service Window
Randolph Building
401 Dulany Street
Alexandria, VA 22314

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lao, Lun-See whose telephone number is (571) 272-7501. The examiner can normally be reached on Monday-Friday from 8:00 to 5:30.

Art Unit: 2615

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chin Vivian, can be reached on (571) 272-7848.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Technology Center 2600 whose telephone number is (571) 272-2600.
